

BILSTEIN[®] SHOCK ABSORBERS

From Super Car To Your Car...

When the designers at Bugatti wanted the most technologically advanced and sophisticated damping system for their 253 mph road legal Veyron super car, they turned to the engineers at Bilstein.

But the engineering doesn't stop at just the super cars. Everything we learn from the most exotic vehicles in the world goes into the full selection of Bilstein products available for your car.

The Bilstein line includes premium original equipment replacement shocks and struts, PSS ride height adjustable systems, PSS9/PSS10 manual adjustable damping and ride height systems and the new electronic adjustable damping Bilstein ridecontrol[®] systems. Whatever level of performance you're seeking, Bilstein has it.

See the full line of Bilstein shocks & struts on our website, or call toll free for the Bilstein retailer nearest you.

BILSTEIN[®]...the world leader in monotube gas pressure shock absorber technology.
