## SHOCK ABSORBERS

**Leading Technology,  
Winning Performance,  
Superior Selection.**

### **BGT Series** *(far left)*

46mm aluminum body with extra large 60mm nitrogen compartment.

- Coilover design
- 60mm nitrogen compartment reduces rod pressure and keeps pressure more constant to heat changes
- Racer rebuildable and revalvable
- Hard coat anodizing for strength and durability
- Coarse threads on shock body for added strength and ease of coil spring adjustment
- Optional adjustable shaft
- Available in 7" and 9" strokes

### **SZ Series** *(center)*

46mm (1.81") diameter steel, sealed monotube gas pressure shock.

- Converts to coilover applications
- Plated for durability and rapid heat dissipation
- Available in 7" and 9" strokes

### **SG Series** *(left)*

36mm (1.42") diameter steel, sealed monotube gas pressure shock.

- Converts to coilover applications
- Lightweight
- Low rod pressure
- Available in 6", 7" and 9" strokes
