WARRANTY

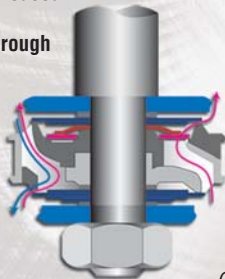

With Challenging Roads Like These Out There, You Need Bilstein Comfitrac®

Bilstein's world-class monotube gas pressure design, combined with the new Comfitrac® valving, delivers overall improved ride comfort and enhanced handling characteristics.

Bilstein Shocks with Comfitrac® Working Piston feature:

- World class leading monotube design for superior heat dissipation
- Massive 46 mm working piston produces full damping capability within 2mm of shaft movement
- High frequency bypass technology Comfitrac® valving reduces road harshness input
- Fewer moving parts reduces wear for increased durability and reliable performance
- More value due to extended shock life through superior manufacturing quality
- Now available for most popular late model motorhome chassis

The Comfitrac® piston instantly reacts to sudden, high frequency harshness - like dropping a wheel into a pothole.

Find out what a difference the right shock absorber can make. For motorhomes, your family car, truck or SUV - **Bilstein shocks are simply the right choice.**

Call for the dealer nearest you or visit us on the web for additional technical and product information.

BILSTEIN...the world leader in monotube gas pressure shock absorber technology.
